Cloud Services

With the growing complexity of the cloud, the increased need for business flexibility, and remote workers, Phone & Data Works can help simplify and provide cloud services to your business. The following solutions can be easily packaged with our cybersecurity suite of services to give you the best possible and most secure cloud experience available.

OFFICE 365

We cover all facets of Office 365 including but not limited to the Office application suite (online & desktop versions), Microsoft Teams and SharePoint. Keep your employees collaborating and productive.

EXCHANGE ONLINE

Our team of engineers will handle your email migration to Exchange Online for you. Get rid of that outdated on premise email server and secure your data in Microsoft's cloud.

MICROSOFT AZURE

Phone & Data Works can provide all Azure product offerings and assign you a team of engineers to get your business up and functioning in a fully hosted cloud environment. This can include everything from virtual servers to Windows Virtual Desktop and everything in between.

MANAGED IT SERVICES

Phone & Data Works takes a proactive approach to managing your IT infrastructure, recommend improvements in business processes and share best practices designed to help your organization accomplish its business objectives through technology.

VIRTUAL DESKTOPS

Desktop virtualization is valuable for small and medium businesses, as it lowers expenditure on hardware and reduces the system administration and maintenance costs.

BACKUP & RECOVERY

We offer fast, reliable data protection by leveraging the cloud to protect clients from downtime and data loss.
